

DISPUTE RESOLUTION IN THE ENERGY SECTOR

Friday 19th October 2007

Since the cost of litigation and arbitration has become prohibitive, parties have moved towards sophisticated strategies for resolving their disputes in the most cost effective manner. The starting point is at the time of contract drafting. Agreements should include a multi-layered disputes clause that uses a variety of techniques, including negotiation, mediation, adjudication, expert determination and dispute boards, besides arbitration as an ultimate fall-back. Each of these, in various combinations, can offer a route out of the dispute. Dr. Robert Gaitskell, Q.C. of Keating Chambers, Chartered Engineer and formerly engaged in oil rig and power station design, surveys the spectrum of energy disputes facing parties and suggests how to plan ahead to avoid wasting costs and alienating trading partners.

Issues covered include:

1. Introduction - The Energy Sector
2. Avoiding Disputes
3. Disputes - Strategies Available
4. Arbitration
5. Mediation
6. Adjudication
7. Dispute Boards
8. Expert Determination

The talk will conclude with a discussion on FIDIC contracts by Simon Hughes.

The Speakers:-

Dr. Robert Gaitskell, Q.C.

Dr. Gaitskell is a practising Queen's Counsel in Keating Chambers, London, and acts regularly as an arbitrator, mediator, dispute board member, adjudicator and expert determinator in energy disputes. He is also a Chartered Engineer and a Fellow of both the Institutions of Electrical (FIET) and Mechanical Engineers (FIMechE). As an engineer he was involved in the design of oil rigs and power stations. He is a former Vice President of the IET/IEE (Europe's largest professional engineering body). He also sits as a part-time judge in the Technology & Construction Court (TCC), London. Dr. Gaitskell is the editor of '*The Engineers' Guide to Dispute Resolution*', 2006, Thomas Telford, London. His PhD, from King's College London, concerned engineering standard form contracts. He is the Chairman of the IET/IMEchE Joint Committee on Model Forms, which produces the MF/1 – 4 suite of contracts.

Mr. Simon Hughes

Simon Hughes is a Scholar of Magdalen College Oxford, where he took a Double First, and has been a practising barrister in Keating Chambers since 1996. He has considerable expertise in energy-related work and has acted for clients on matters relating to power generation, oil & gas exploration, process plants, shipbuilding, mining and other construction and engineering projects.

Mr Hughes has been involved in disputes involving most of the standard form contracts in use globally and is the co-author of a new commentary on the FIDIC Red Book published by Sweet & Maxwell.
